

Vote

→ **March 10, 2020**

The primary purpose of the sinking fund election is to remodel and upgrade

Wyandotte schools, other school facilities, and technology.

If approved by voters, projects funded through the sinking fund proposal will

affect every Wyandotte school and every Wyandotte student

Informational Flyer*

→ The Wyandotte Board of Education has approved placing a sinking fund proposal on the March 10th ballot.

Registered voters residing within the City of Wyandotte will vote on a **10-year, 1.75 mill sinking fund proposal.**

A sinking fund is a pay-as-you-go method of funding upgrades and repairs to schools and school facilities. Wyandotte Public School's proposed sinking fund will generate approximately **\$1,000,000 per year for 10 years. This will not be a tax increase.**

Funds generated through a sinking fund can be used for construction, renovations and repairs of buildings, facility security enhancements, and the acquisition or upgrading of technology. They cannot be used for salaries.

→ **Benefit:**

The primary benefit of a sinking fund is that the school district does not acquire debt and there are no interest charges.

"We have determined that a sinking fund tax proposal is the most cost-effective way to seek the community's support to fund needed facility improvements to keep our school up to date and safe."

Patrick Sutka
President
Wyandotte School Board

→ **Facilities:**

The school district supports nearly 5,000 students at 11 schools.
