Wyandotte Public Schools

"Educate – Inspire - Empower"

March 3, 2020

Dear Parents and Guardians,

The novel coronavirus, COVID-19 has been the subject of many conversations. While there are no confirmed cases in Michigan, I want to assure you we have been preparing and planning so that all of our 4,500 students are as safe as possible.

We disinfect entire classrooms and learning spaces with Victory Electronic Sprayers. Each of our schools have been disinfected numerous times since the onset of flu season. This work is done after school hours and kills 99.9% of germs within 4 minutes. The product is also bleach free.

The message of washing hands often is also being given, especially before lunch. We cannot emphasize this enough!   The use of disinfectant wipes during the day has also helped minimize the spread of infections. Reminding students not to touch their nose and mouth with unwashed hands will also be a common message in the days to come.

The Michigan Department of Education has partnered with the Michigan Department of Health and Human Services and they are actively monitoring the situation. They are in constant contact with each school district and have provided a website with more information at michigan.gov/coronavirus.

I will continue to keep you informed as we see what impact COVID-19 has on our community. Yet, I wanted you to know we are prepared and doing everything possible to keep your child(ren) safe.

Sincerely,

Catherine M. Cost, Ed.D.
Superintendent
